A Chasin Clean Coasts Tour

# About Us

Chasin Clean Coasts is all about spreading awareness of the marine environment to the world. With a love for the ocean and travel, a fire in the Chasin heart was lit and the adventures kicked off.

What arose from this fire was an eco-friendly tour organisation and a space for coastal vibers, worldly groovers and change makers to come together.

## Day 1 - Bangkok.

### HELLO THAILAND

Welcome to the Land of Smiles!! And what a spot to start your adventure, none other than the big, culturally rich, bustling city of Bangkok! One of the Chasin crew will be waiting for you at the airport and will whisk you away through the crowds and into the craziness of the Khao San area.

Today is your day to settle in - wander through the markets and pick up a pair of elephant pants to strut your stuff in or grab a Chang and watch the world go by.

If you're up for it tonight we will catch up for a bite to eat and venture out together.

## Day 2 - Bangkok

### HUSTLE & BUSTLE

Rise and shine Chasin crew, we have a big day ahead of us!

Cure any dustiness from last night with some tucker for breakfast and get ready to hit the city. We'll be jumping in boats, checking out markets, visiting temples and learning all about the culture of Thailand.

Tonight it's our official 'Welcome to the Chasin Thailand Tour' dinner, so kick back and get ready to eat!

## Day 3 - WFFT TRAIN MARKET & TRAVEL

We are heading to Hua Hin today, via Mae Klong. This great little Thai city is known for its markets, the most famous being the train market - picture a market on a train track, that has to give way to four trains a day! Umbrellas, shade shelters and baskets get pushed back, rolled in and folded away for a few minutes while it passes, then it all comes back together... mind blowing!

We will take you to one of our favourite restaurants for a local lunch, then it's time to hit road and head south to the ELEPHANTS!

## Day 4 - WFFT

### MEET SOME ELEPHANTS

This will be one of the highlights of the trip. You can see these gentle giants happily living in a sanctuary (WFFT) that's all about helping them and many other rescued animals live an amazing life.

## Day 5 - Hua Hin A BIT OF CHILL

this morning we'll be leaving our new four legged friends and heading to Hua Hin town. This afternoon we can chill by the pool before heading out to the famous night market for some delicious tucker, a spot of shopping and maybe an outdoor, street style massage.

## Day 6 - Hua Hin WILDLIFE SAFARI

We've met some rescue elephants, now we are going to take a safari into a national park and see if we can find some wild ones.

## Day 7 - Koh Phayam TRAVEL DAY

Get your headphones out and put on some comfy clothes, today is one of our longer days to travel south and get to Koh Phayam. We'll be in a bus, a boat and a tuk tuk.

Upon arrival you'll be shown your room and then the afternoon is yours to chill on the beach

## Day 8 to 10 - Koh Phayam PROJECT TIME

The next three days will be where you roll up your sleeves, get hot and dirty and experience something like no other. We will be helping the community of Moken people, Burmese and local Thais to better their livelihood and help create a sustainable future for them. And of course some beach cleaning and a marine conservation workshop.

The work may change from time to time, but with all things Chasin, we'll be making small steps that lead to big differences. A local style lunch will be included each day.

## Day 11 - Ao Nang

### TRAVEL DAY

Good Bye Koh Payam, see you next time!  
Today is another travel day, further south to the province of Krabi. You want to keep your eyes open for today's trip, loads of little towns, high, jagged limestone rocks and lush vegetation.  
After the day of travel you'll be tired and we know the spots for a good feed, so dinner is on us.

## Day 12 - Ao Nang

### ISLAND HOPPING DAY

It's time for a day on the water for some snorkeling and island hopping!! The islands in the south of Thailand are really something else. Slip on a shirt, slap on some sunscreen and slap on a hat, lets hit the water.  
Oh, did I mention we'll be teeing up with a citizen science program to check out their coral nursery? Well, we are!

## Day 13 - Ao Nang

### NATURE & LEARNING

Being with nature has so many benefits!  
So today we are going to immerse ourselves into more natural environments and learn about the conservation efforts being done.
